Dear

I received your letter of February 26 indicating your written interest in assignment with this office.

I believe the situation referred to in our conversation has been resolved for the time being. However, conditions in the Agency and in this office are far from static and your continuing interest will be assumed and considered should a favorable area develop.

I enjoyed our conversation and hope that I may be in a position to contact you in the near future. Kindest personal regards.

Sincerely,

25X1A
